

Company Profile

RELIABLE LINES CONTRACTING COMPANY

INTRODUCTION

Since our establishment we have been providing Construction services for major Clients and Government Ministries across different industries; Our contribution covers Oil & Gas, Electrical Power Transmission, Early works and Infrastructure, and TCF Camps construction Sectors.

We always conduct work with ideals that have guided our company since its founding:

- This includes an energetic enthusiasm for what we do,
- A sensitivity to the needs of our Clients,
- A strong commitment to the projects we executes

Our people, our focus and our commitment for delivery present a very strong case for choosing RELIABLE LINES as your partner.

WALID CHAYATI – GENERAL MANAGER

About Us

RELIABLE LINES is a leading Oil and gas , Water Pipeline Contractor, specialized in providing Engineering, Procurement and Construction (EPC) solutions in Saudi Arabia. We help our customers deliver projects that create a lasting positive impact on economies.

At Reliable Lines, we provide professional and technical solutions to deliver safe, well-executed, capital-efficient construction for different clients around the Kingdom.

As an industry leader, we design and build projects safely, cost-effectively, and on schedule and as a supportive teamwork, we believe in the power of teamwork and sharing credit so we count on our staff to achieve exceptional results for our customers and shareholders to execute projects that stand the test of time.

We offer a broad range of customer services, managed with a proven, highly disciplined process from early-phase planning to post-construction facility management. Since our inception, we have remained forward-thinking and operate on intensity and integrity.

Our business-led approach ensures a performance-driven, motivated, professional workforce supported by end-to-end business processes and a system that creates a knowledge-based culture within the organization.

Our responsibilities are built on a commitment to touch the lives of people and communities we serve because we believe in the power of getting involved in success.

Mission & Vision

Our Mission

"Our mission is to remain reliable and efficient at the forefront of the Saudi construction and oil & gas industries through quality, honesty, and hard work".

Our Vision

Our goal and concern is to provide reliable value-added construction services by adding innovation and providing state of the art industrial experience to our customers and become dynamic leaders committed to quality and excellence through services in Saudi Arabia

OUR APPROACH

We manage the project lifecycle with EPC approach to guarantee project delivery, cost control and risk mitigation.

STEP
01

► ENGINEERING

Detailed plans and designs for the construction project are developed by our engineering team like architectural drawings, structural designs...etc.

STEP
02

► PROCUREMENT

We take responsibility for procuring all the necessary materials, equipment, and services required for the construction project.

STEP
03

► CONSTRUCTION

Executing the actual construction work, coordinating various teams and subcontractors, managing the project schedule.

COMPLIANCE

RELIABLE LINES solid commitment to compliance helps in maintaining all legal & ethical obligations and create a culture of integrity, trust and drive sustainable growth. Our main compliance features include the following:

SAFETY AND HEALTH POLICY

We are committed to local and international safety and health standards in each aspect of our work, such as worker safety, environmental protection, and construction site management. We have established a comprehensive safety management system that includes regular risk assessments, safety training programs, and strict adherence to personal protective equipment (PPE) requirements. Our proactive approach to safety extends to continuous monitoring and evaluation of our safety protocols, allowing us to identify potential hazards and take immediate corrective actions.

SUSTAINABILITY AND ENVIRONMENT

We are committed to local and international safety and health standards in each aspect of our work, such as worker safety, environmental protection, and construction site management. We have established a comprehensive safety management system that includes regular risk assessments, safety training programs, and strict adherence to personal protective equipment (PPE) requirements. Our proactive approach to safety extends to continuous monitoring and evaluation of our safety protocols, allowing us to identify potential hazards and take immediate corrective actions.

Why Choose **RELIABLE LINES**
Our reputation is built on our fast-track projects

GM Message

“

Since our inception, we believe that construction is more than just building structures; it is about creating spaces that inspire, connect, and improve lives. With each project, we strive to leave a lasting impact, one that enhances communities and contributes to sustainable growth.

In the past years, we have primarily concentrated on Organization Re-structuring and have invested considerably in Business Development and we have accomplished some significant milestones namely successful full implementation of ERP for our business modules , ISO Certification in Integrated Management System, Local content Certificate, 1K TVA certification with 62 % score, registered and qualified with Saudi Aramco , SABIC , Maadan , Redsea Global , NEOM, ROSHIN, SEVEN, Diriyah and other PIF Companies.

Innovation drives us forward. We embrace new technologies, construction methodologies, and industry best practices to constantly improve our processes and deliver cutting-edge solutions in the Kingdom of Saudi Arabia for construction services and gradually set footprints locally and internationally.

I am immensely proud of the progress we have achieved thus far, and I am confident that our future holds even greater possibilities. Together, as a unified and determined team, we will continue to build on our success, shape remarkable structures, and make a positive impact on the communities we serve.

Engineering & Construction Services

Temporary Construction Facilities (TCF)
Turnkey Solutions Services

Early Works and Infrastructure

Reliable Lines is a trusted provider of comprehensive early works, infrastructure, engineering, and construction services with a proven history of delivering successful project solutions in Saudi Arabia.

Driven by a commitment to excellence, we offer end-to-end services, from initial concept and feasibility studies to detailed design and project management. Our dedicated team, industry-leading practices, and focus on innovation ensure that every aspect of your infrastructure project is managed with precision and care. We deliver outstanding results across various sectors, including roads, water supply and sanitation systems, telecommunications, and other critical infrastructure facilities.

Civil Infrastructure

At Reliable Lines, we believe in fostering long-term partnerships by understanding our clients' unique objectives, challenges, and financial considerations. This approach enables us to provide tailored solutions that align with their vision and exceed expectations.

We support both private and public sector clients in delivering even the most demanding projects, including site development, earthworks, and in-situ concrete construction. Our portfolio extends to industrial buildings, HCIS-compliant security fences, and other customized infrastructure solutions. With a focus on adaptability, we incorporate evolving technologies and maintain flexibility for future expansions, ensuring sustainable and resilient outcomes for every project.

SUB SERVICES

- Early Site Works
- Earthwork and Enabling Works
- Roadwork Construction
- Pipeline Civil Works
- Helipad Construction

Electrical and Mechanical Systems, Engineering and Construction Services

We develop an integrated Electrical and Mechanical systems to enhance the living standards and comfort areas of people's lives.

Reliable Lines offers commercial and industrial construction contractor service & building services, bringing valuable experience to customized solutions. Our Systems include HVAC, MEP (Mechanical, Electrical, and plumbing), plumbing and Sanitary Systems, STP and more, typically undergo rigorous testing to ensure that they meet safety standards, functional requirements, and performance expectations.

Mechanical

- Metallic and non-Metallic Pipeline
- Underground & Above Ground Utilities
- District Cooling Plant and ETS
- Reverse Osmosis Plant
- Sewage Treatment Plant
- Fueling Station
- Irrigation Pump Station
- Fire Fighting System
- HVAC Systems

Electrical

- Transmission Line
- Power Generation Plant
- Substation Construction
- Transformer Room
- Distribution Network

Oil and Gas Pipeline Service

At Reliable Lines, we offer a unique set of pipeline services unmatched anywhere in the oil & gas industry. We can provide pipeline construction, integrity service, subcontractor management, and labour resource management.

Pipeline Construction

We are experienced in the construction of pipelines ranging from small to large pipelines including mainline cross-country construction utilizing mechanized or manual welding methods in a variety of geographic terrains. Reliable Lines current capacity includes mainline spreads of modern pipeline construction. We can also provide qualified inside plant construction, handling above and underground piping in etc.

The pipeline construction services provided by us include:

- Welding and weld repairs
- Cold Bending
- NDT Testing
- Painting, Blasting, Coating and holiday testing
- Tie-in welds
- Site preparation, including Excavation,
- Backfilling
- Padding, lowering, backfilling, compacting, forming, berm and crude oil stabilization of the berm
- Fabrication and installation of signage
- Hydro testing
- Pre Commissioning

Temporary Construction Facilities (TCF), Turnkey Solutions Services

Reliable Lines specialized in providing EPC Turnkey Solutions for Construction of Temporary Construction Facilities — TCF.

Our scope includes complete design including engineering for all disciplines, procurement, construction, commissioning, Operation and Maintenance in accordance with Saudi Building Code and International standards. We deliver these facilities for different sectors since they provide flexibility, cost-effectiveness, time savings, improved productivity and environmental benefits for site workers and managers.

- ✓ **Site Offices Buildings Construction**
- ✓ **Staff and Labor Camps Construction**
- ✓ **Sport Facilities Construction**

DIVISIONS AND MAJOR PROJECTS

OIL & GAS CLIENT: ARAMCO

PROJECTS VALUE: 49M (SAR)

MASTER GAS SYSTEM

- **SCOPE OF WORK:** COMPLETION OF PIPELINE AND MAINLINE VALVE MECHANICAL WORKS AND ERECTION AT 7 STATIONS AND 3 SCRAPERS

FADHILI DOWNSTREAM PIPELINE PROJECT

- **SCOPE OF WORK:** SUPPLY OF SKILLED MANPOWER AND EQUIPMENT FOR MAIN LINE VALVE INSTALLATION AND ROW AND BERMING.

ELECTRICAL & POWER SYSTEMS

CLIENT: Aramco PROJECTS

VALUE: 22M (SAR)

•1) ELECTRICAL WORKS FOR VALVE AND PUMP STATIONS

- **SCOPE OF WORK:** SUPPLY AND INSTALL, RTU, MDB, INSTRUMENTS, CATHODIC PROTECTION, FIBER OPTIC AND DISTRIBUTION NETWORKS FOR 11 VALVE STATIONS FROM PS6 TO QASSIM

TCF AND CAMPS

CLIENT: SINOHYDRO PROJECTS

VALUE: 18M (SAR)

1) EARLY EARTH WORKS AND CAMP CONSTRUCTION .

SCOPE OF WORK: LAND PREPARATION, BACKFILLING AND COMPACTION, PREFAB UNITS' ERECTION AND FINISHING WORKS INCLUDING MEP
